During your internship tenure, it is important to follow these guidelines:

- Maintain a professional presence by updating your LinkedIn profile. Share your achievements such as offer letters, certificates, and project progress. Mention and tag Primeor Solutions in your posts.
- Follow ethical practices and maintain academic integrity. Plagiarism or copying work is strictly prohibited and may lead to termination of the internship.
- Demonstrate your work by sharing your project outcomes and learning experience on LinkedIn. Use relevant hashtags like #PrimeorSolutions #primeorDataAnalytics #primeorInternship.
- Ensure timely completion of tasks and maintain consistent communication with your mentors.
- Be proactive, disciplined, and committed to your learning throughout the internship.

DATA ANALYSIS

TASK LIST

Welcome to the Primeor Solutions Data Analytics Internship Program!

During this internship, you will work on real-world business analytics tasks using raw ecommerce datasets containing inconsistencies, missing values, and data quality issues.

All tasks are **compulsory** and must be completed successfully as part of the internship program.

The internship is designed to provide hands-on experience in data cleaning, analysis, visualization, and business reporting using real-world raw datasets.

E-Commerce Data Analytics Internship Project
Primeor Solutions

Level 1

Level 1: DATA UNDERSTANDING & CLEANING (EXCEL)

Task 1:-

Data Cleaning

- Clean the raw dataset by performing the following operations:
- Remove duplicate records
- Handle missing/null values
- Standardize inconsistent text values
- Fix incorrect date formats
- Identify and correct invalid numerical values
- Remove unnecessary spaces and formatting inconsistencies

Level 1

Level 1: DATA UNDERSTANDING & CLEANING (EXCEL)

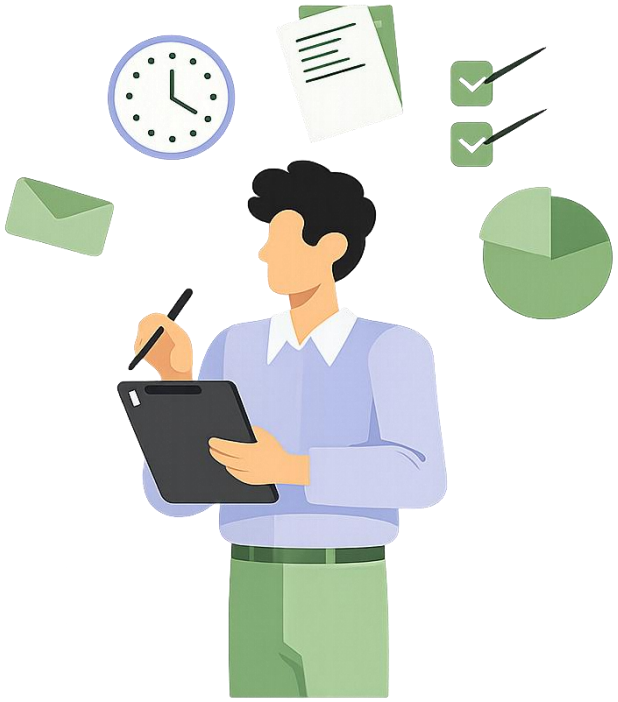

Task 2:-

Basic Excel Analysis

- Calculate Total Sales
- Calculate Total Profit
- Find Average Discount
- Find Top 5 Products by Sales
- Find Top 5 Loss-Making Products
- Analyze Region-wise Sales

Level 1

Level 1: DATA UNDERSTANDING & CLEANING (EXCEL)

Task 3:-

Pivot Table & Charts

- Sales by Region chart
- Profit by Category chart
- Segment-wise Sales analysis
- Monthly Sales Trend

Level 2

Level 2: DATA ANALYSIS (SQL)

SQL ANALYSIS

Task 1:-

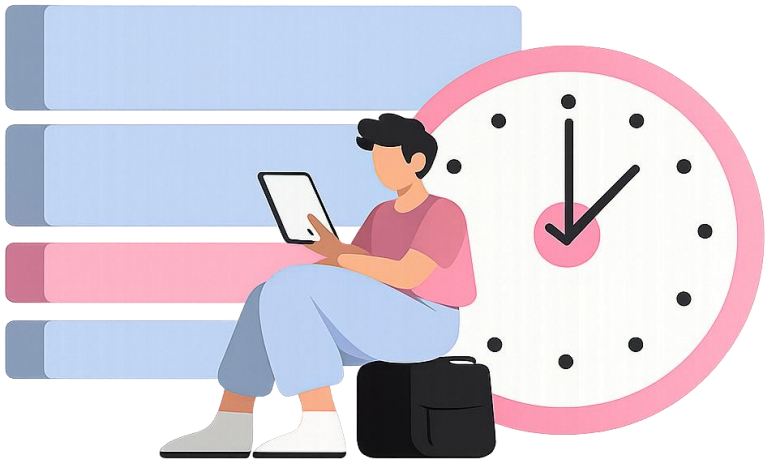

Import Data into SQL

- Import the cleaned dataset into SQL.

Level 2

Level 2: DATA ANALYSIS (SQL)

SQL ANALYSIS

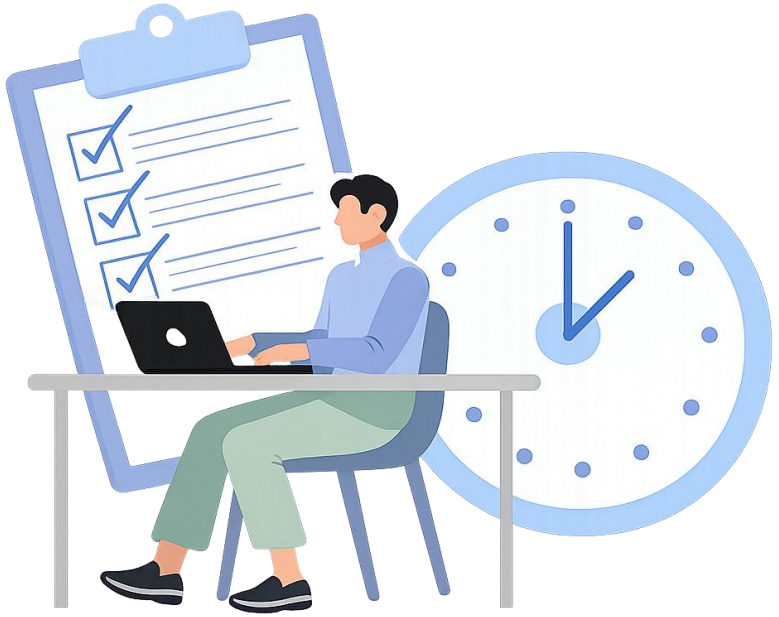

Task 2:-
SQL Queries

- Write SQL queries for:
- Top 10 profitable products
- Top 10 customers by sales
- Region-wise total sales
- Category-wise average profit
- Highest discount category
- Orders with negative profit
- Monthly sales trend
- Market-wise revenue analysis
- Top-performing sub-categories
- Ship mode usage analysis

Level 2

Level 2: DATA ANALYSIS (SQL)

SQL ANALYSIS

Task 3:-

Prepare short insights based on SQL analysis.

Example:

- Which market generates highest revenue?
- Which categories are least profitable?
- Which shipping mode is most commonly used?

Level 3

Level 2: DATA ANALYSIS (PowerBI)

POWER BI DASHBOARD

Task 1:- POWER BI DASHBOARD

Create an interactive Power BI dashboard using the cleaned dataset.

Page 1 — Executive Overview
Include:
- Total Sales
- Total Profit
- Total Orders
- Average Discount

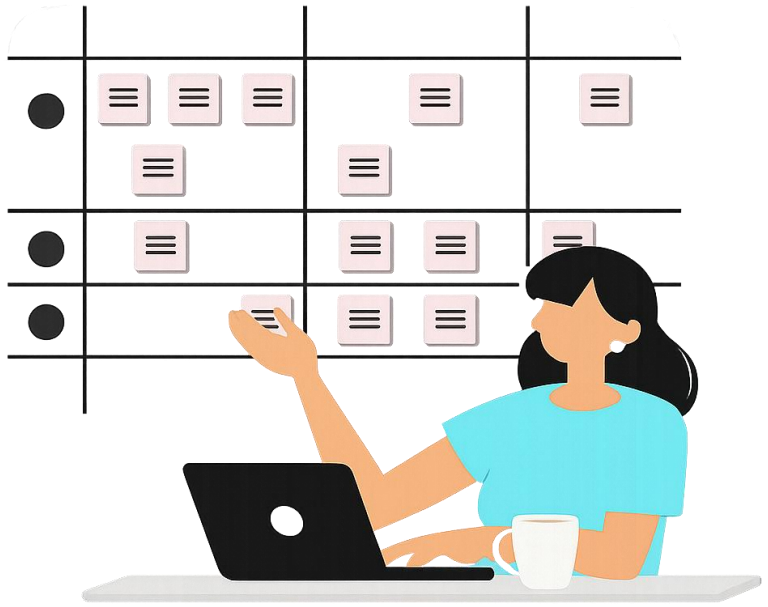

Page 2 — Sales Analysis
Include:
- Sales by Region
- Sales by Market
- Monthly Sales Trend
- Category Performance

Page 3 — Product & Customer Insights
Include:
- Top Products
- Top Customers
- Profit by Sub-Category
- Segment Analysis

Level 3

Level 2: DATA ANALYSIS (PowerBI)

POWER BI DASHBOARD

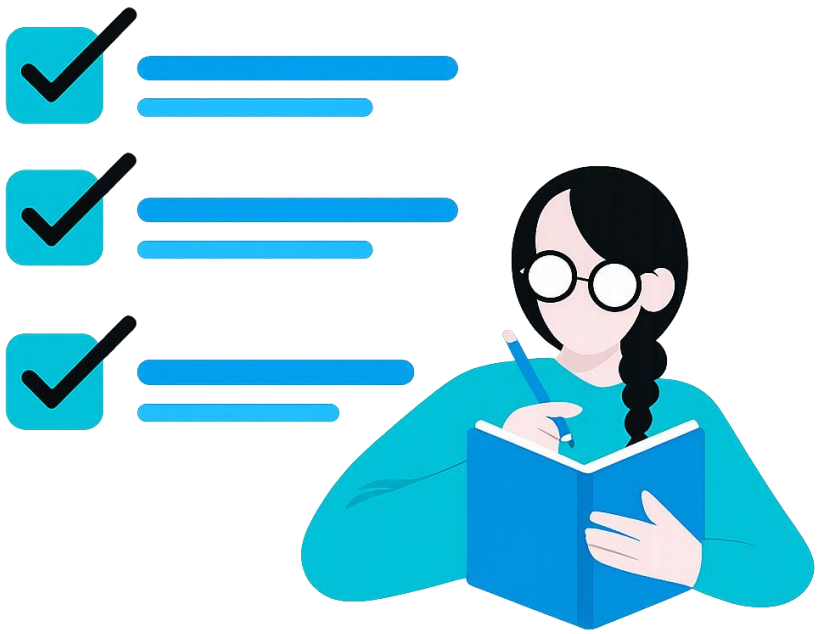

Task 2:-

Dashboard Features

Dashboard must include:

- Slicers/Filters
- Interactive visuals
- KPI cards
- Proper formatting
- Consistent color theme

FINAL SUBMISSION REQUIREMENTS

Submit the following files:

- Cleaned Dataset (.xlsx or .csv)
- SQL Queries File (.sql or .pdf)
- Excel Analysis File
- Power BI Dashboard (.pbix)
- Final Business Insights Report (.pdf)

Upload all required files together in a single ZIP folder. Do not upload files separately.
